- **Wildlife Position Available**
- **2005 Annual Meeting Registration Form**

PRESIDENT'S MESSAGE

A wildlife professional's response to the increasing rate of developments in technology and knowledge associated with our line of work is to seek opportunities to learn about these advances and how to apply them to our daily activities. Traditional approaches to accomplishing this have included participation in technical meetings of professional societies and attendance at formal training sessions. Northwest Section members have a great opportunity to pursue the first of these long-established options. The Montana Chapter is hosting the annual meeting of the Northwest Section in March. They are finalizing planning for this event. It promises to be an extremely valuable

opportunity for us to continue to advance our knowledge of new concepts, technologies, and their applications to conserving the wildlife resource. Please see the information on registration elsewhere in this newsletter and plan on joining us in Helena, Montana on 28 February through 4 March 2005.

It is very important that employers recognize, plan for, and support their employees' efforts to continue to learn by encouraging their attendance at professional meetings and training sessions. However, during these times of declining revenues and budget deficits, it is becoming more difficult to obtain approval

and support for these activities. A potential, low-cost supplement to these traditional approaches may be distance learning. Distance learning programs in wildlife ecology are beginning to be developed and offered by a number of universities in North America.

As an example, Oregon State University is one of the major research universities offering a comprehensive distance-learning program (<http://ecampus.oregonstate.edu/>). Through its "Ecampus," OSU Extended Campus is providing quality educational opportunities to interested professionals. They offer online degree programs, including majors in Environmental Sciences, General Agriculture, Liberal Studies, and Natural Resources. In addition, all of their individual classes in these programs, from

GIS to Fire Ecology, are available individually for professional development or personal enrichment. The flexibility provided by OSU's Ecampus and its affordability make continuing education opportunities accessible to all wildlife professionals. Consider this non-traditional approach to keeping up with developments in our field when you prepare your next training plan.

For other examples of Universities offering distance learning opportunities check out:

<http://www.montana.edu/distance/>
<http://umonline.umt.edu/>

Lowell H. Suring

EXECUTIVE DIRECTOR HODGDON LEAVES TWS

At the end of September Harry E. Hodgdon stepped down as Executive Director of The Wildlife Society to pursue some new challenges and interests. TWS Council wishes the best to Dr. Hodgdon in his future pursuits and thanks him for his 27 years of dedicated service to the organization. Below is his personal statement to TWS officers and members.

I came to TWS in 1977 as Field Director and was selected to oversee the organization in 1982. The decision to leave was not easy and resulted from a combination of personal and work considerations, including illness in my family.

After more than 2 decades as Executive Director, it is time for fresh ideas and approaches to keep the Society moving forward during a time of declining membership and tight finances. As I look back on the last 27 years, it is with a sense of great accomplishment for how far we have come together. Today, the Society is

much more effective at meeting the needs of its members and the profession, thanks to establishing a full-time wildlife policy position to advocate the use of wildlife science in decision-making, initiating and sustaining a long-range planning process, establishing a professional development program, expanding international activities including periodic International Wildlife Management Congresses, developing subject-area working groups, initiating and organizing an annual conference and trade show, establishing a renewal mechanism for certification of professional wildlife biologists, establishing a managing editor position and permanent editorial office, redesigning the Wildlife Society Bulletin, and our recent Endowment Campaign initiative, to name but a few of our accomplishments.

Over the years I have been extremely fortunate to have been teamed with so many terrific individuals - Society presidents and Council members with whom I developed strong and lasting friendships

based upon mutual commitment and trust; dedicated Section, Chapter, and Working Group leaders who were always ready to go that extra mile for the Society and the resource; Committee Chairs and Editors who were eager to share their expertise to further the Society's mission; and a hard

working staff dedicated to serving our members and the profession. It has been a privilege to work with so many dedicated people over the years and I look forward to maintaining these relationships in the coming years.

2005 MONTANA CHAPTER AND NW SECTION ANNUAL MEETING

This year's meeting will be held in Helena at the Red Lion Colonial Hotel, 2301 Colonial Drive, 406-443-2100, during the week beginning February 28, 2005. The theme for 2005 is "**The Influence of Politics on Wildlife Management**". This is the first time our annual meeting will be held in Helena. As you know, the Legislature will be in session so Helena will be a "busy" place. A block of rooms has been reserved at the Hotel at government rates so plan to reserve your room early! The block of rooms will be held until January 27. If rooms are filled there are several hotels within walking distance of the Colonial including: Days Inn (442-3280), Fairfield Inn (449-9944), Helena's Country Inn and Suites (443-2300), Shilo Inn (442-0320), and Super 8 (443-2450).

The conference will be of similar format as past meetings, with a workshop, paper sessions, and social events. This year the Northwest Section of TWS will be meeting with us so be ready to welcome our guests. Breakout meeting rooms can be made available for groups who wish to meet while we're all gathered in Helena. Please contact Tom Carlsen at 406-266-3367 to reserve a room for side meetings if you haven't already talked to him. Keep in mind that side-meeting rooms will not be scheduled during the plenary or concurrent paper sessions.

The week kicks off with our workshop titled "Wildlife Conservation on Private Lands" beginning 1pm February 28 and features 2 parts. The first day will focus on protecting private lands and the rural way of life. Part

2 will finish up the workshop on the morning of March 1 and will deal with habitat restoration and management on private lands. Both sessions will have various speakers who will discuss tools and case studies.

Last year at our business meeting the board voted to donate \$1000.00 to the production of a documentary film dealing with Montana's wildlife; the title of the film, which will be aired on PBS, is "Montana's Wildlife Legacy – Back from the Brink". The film is nearing completion and we are planning on having a special showing of portions of the film at our 2005 meeting.

Some highlights of our 2005 meeting include:

- February 28, 1pm – Workshop: "Wildlife Conservation on Private Lands – Part 1".
- March 1, 8am – 12pm – Workshop: "Wildlife Conservation on Private Lands – Part 2".
- March 1, 1:30 – Annual meeting kickoff, Keynote Speaker - Jack Ward Thomas, Boone and Crockett Professor of Wildlife Conservation, School of Forestry, the University of Montana.
- March 2 – Banquet Speaker, Wally McRae, "Poet Lariat" of Montana. Mr. McRae is a renowned Cowboy Poet, Montana Rancher, and has a long history of involvement in environmental issues in eastern Montana.

About the workshop: We will have speakers (including landowners) providing information on tools and techniques for conservation, restoration and management of wildlife on private lands. The workshop will include discussions ranging from conservation easements for individual landowners to large-scale conservation efforts with multiple parties and/or large corporations. Organizers include the US Fish and Wildlife Service's Partners for Fish and Wildlife program. We hope that participants will include MFWP, TNC, private and corporate landowners, NRCS, Montana Land Reliance and others (but we haven't made all these contacts yet).

About the keynote speaker: In keeping with the theme of this year's meeting we are honored to have **Jack Ward Thomas** as our keynote speaker. Jack Ward Thomas is the Boone and Crockett Professor of Wildlife Conservation, School of Forestry, the University of Montana. Starting his career as a wildlife researcher with the Texas Game and Fish Commission, he joined the Forest Service in 1966 and held a variety of positions in wildlife biology research. In 1974, he led research at the Blue Mountains Research Lab in LaGrande, OR, where he became well known for elk and spotted owl studies. In 1993, he was named to head the Forest Service Ecosystem Management Assessment Team, in response to President Clinton's Forest Conference in Portland, OR. He served as Chief, USDA Forest Service, from 1993-1996. He has published over 300 items in the fields of forestry, range management, philosophy, wildlife, ecology, planning and natural resources management. There are very few in our profession who have had such a mark on wildlife management as has Jack Ward Thomas.

About the banquet speaker: Wally McRae owns and operates the Rocker Six Cattle Company, which is located south of Forsyth, Montana on Rosebud Creek. Wally is a third generation Montana rancher and

considers himself first and foremost a livestock rancher. He also is regarded as among the nation's foremost Cowboy Poets. He was one of the founders of an annual Cowboy Poetry Gathering in Elko, Nevada and received the Governor's Award for the Arts in Montana. He also was the first Cowboy Poet to be awarded the National Heritage Award from the National Endowment for the Arts. Wally currently serves on the National Council of the Arts. Wally's love of the land where he lives and works is highlighted by his continued involvement in the Northern Plains Resource Council, which he helped found.

REGISTRATION FORM

To register, use the form near the end of the newsletter. Note that it 2 pages long.

PRELIMINARY AGENDA

Look for a preliminary agenda to be posted in the near future on the Montana Chapter website: <http://www.montanatws.org>

TWS Auction

The silent auction at our annual meeting is an important activity the Chapter uses to raise funds for scholarships, to support the UM and MSU TWS Student Chapters, and to fund general Chapter activities. We can always use help acquiring items for the auction. If you're interested in helping out please contact Denise Pengeroth 406- 449-5201, X215, dpengeroth@fs.fed.us.

NOMINATIONS AND AWARDS

Nominations

It is time once again to conduct the election for President-Elect for the Chapter. Anyone who is interested in seeking the office is encouraged to submit their name for nomination or have an associate nominate them by contacting Denise Pengeroth 406-449-5201, X215, dpengeroth@fs.fed.us. Nominations should reach Denise no later than January 15, 2005.

Awards

The Chapter is seeking nominations for four awards to be presented at the 2005 Conference.

- The Distinguished Service Award is presented annually for cumulative, past, current, and/or continuing achievements in wildlife conservation.
- The Biologist of the Year Award is presented annually for significant achievements in wildlife conservation anytime during the five years immediately preceding award presentation.
- The Bob Watts Communication Award is presented for significant communication in media such as professional publications, popular wildlife articles, books, movies, or videos that have a relatively wide audience.
- The Wildlife Conservation Award is given to an individual or non-governmental organization for past, present or ongoing efforts that enhance wildlife conservation in Montana.

Recommendations for these awards, along with a brief justification for the nomination and a discussion of the qualifications of the nominee, should be submitted to Tim Thier, Awards Committee Chair (PO Box 507, Trego, MT 59934, Ph: 882-4697) no later than January 15, 2001.

CALL FOR PAPERS AND GUIDELINES

There is still time to submit abstracts for presentations for the 2005 annual meeting. Presentations will be 30 minutes in length, including introduction of the presenter and time for questions. Students are especially encouraged to submit papers. We are also seeking moderators for each session; if interested in moderating a session, please contact Tom Carlsen at the email/phone number listed below.

Please submit the following information with each abstract:

1. Lead author name, affiliation, mailing address, phone and fax numbers, and email address.
2. Names, affiliations, and contact information of additional authors.
3. **ABSTRACT** – You must use the referenced guidelines and example; please note that the abstract you submit will be the **FINAL** that is printed for the paper sessions.

If you want to present a paper, please submit your **TITLE** and **ABSTRACT** to Tom Carlsen no later than January 15, 2005. Submit titles and abstracts to:

Tom Carlsen
Montana Fish, Wildlife and Parks
P.O. Box 998
Townsend, MT 59644
(406) 266-3367
fwp@ixi.net

Paper Guidelines

- Please submit your abstract electronically to Tom Carlsen at the electronic address identified above
- If you do NOT have access to email, then submit your abstract on a floppy disk with a hard copy; clearly label both with pertinent ID information including name of lead author, abstract title, and lead author contact phone number and email address
- The person submitting the title/abstract should provide a separate, detailed list of information for each author including: place and full address of employment, email, and phone number, what authors are students, and whether the presenting author is a student and if so whether he/she wants the presentation judged. Place an asterisk next to presenting author.
- Follow the format for publication in the Intermountain Journal of Science (example provided below)
- Use WordPerfect or Microsoft Word
- Single space

- Use a paragraph indent for all but the first 2 lines
- No hard returns within a paragraph
- No more than 250 words (excluding abstract title and author information)

Format Example

***Please be sure to follow this format. Abstracts in a different format may be returned to the author for reformatting and will need to be resubmitted.

WILDLIFE ISSUES RELATED TO THE RECONSTRUCTION OF U. S. HIGHWAY 93 ON THE FLATHEAD INDIAN RESERVATION

Dale M. Becker. Tribal Wildlife Management Program. Confederated Salish and Kootenai Tribes. P. O. Box 278. Pablo, Montana 59855.

Planning for the reconstruction of U. S. Highway 93 through the Flathead Indian Reservation resulted in substantial consideration regarding wildlife and wildlife habitat issues. After years of negotiation, the Confederated Salish and Kootenai Tribes, the Montana Department of Transportation and the Federal Highways Administration reached agreement on most aspects of the project in 2000. Still to be finalized are reconstruction plans for a ten-mile portion of the highway that passes through the Ninepipe-Kicking Horse wetland complex. The Memorandum of Agreement between the three governments includes provision for the construction of 42 wildlife crossing structures and other design features to enhance wildlife habitat features and maintain habitat linkages. In addition, wetland habitat mitigation will be aimed at avoidance of wetland habitat to the extent possible and acquisition, restoration and ongoing management of wetland habitat. The logic included in planning for these design features and the details of the reconstruction plans, as they apply to wildlife and habitat concerns are presented, as are details of the anticipated designs for wildlife crossings and other mitigation plans.

STUDENT TRAVEL GRANTS AVAILABLE FOR 2005 NW SECTION MEETING

Remember that the Northwest Section of The Wildlife Society is offering grants to partially support travel, registration, and/or lodging expenses associated with the 2005 annual meeting to students desiring to attend the meeting. Details on the grants and how to apply may be found in the October 2004 Northwest Section newsletter available at ----. Although the deadline given in the October newsletter will have recently passed by the time this January newsletter is issued, anyone still interested in student travel grants should still contact

Lowell Suring at the following address to see if any grants are still available.

FORUM ON NATIONAL FOREST WATERSHEDS, LANDSCAPES, AND ECOSYSTEMS IN ALASKA

THE BIG PICTURE:

A Forum on National Forest Watersheds, Landscapes, and Ecosystems in Alaska
1-3 March, 2005
Anchorage Sheraton.

The 2-day forum will be followed by a day of resource specific meetings with USFS personnel and our partners and collaborators. The desired outcomes include improved understanding of large-scale patterns and processes as a context for resources planning and management; strengthened cooperation; and take-home knowledge and skills that participants can apply in their jobs.

The four sessions for days 1-2 include:

- *What makes our landscapes the way they are?* This is an introduction to dynamic processes that shape landscapes and ecological patterns in southeast and south-central Alaska, including: post-Pleistocene uplift, seismic events, climate, erosion, vegetation dynamics, and other ecological processes.
- *How do landscape processes shape the human environment?* This session will examine how landscapes have shaped patterns of human movement, settlement, and

resource use in southeast and south-central Alaska, both prehistorically and today. Contemporary influences on urban and rural geography, transportation, and resource distribution and use are discussed.

- *Evaluating management results for watersheds and landscapes.* What do we measure, at what scales, and how does it add up to big-picture understanding? This includes discussion of functioning watersheds and performance measures for tracking watershed condition and trend (inclusive of physical, biological, and social components).
- *Practical examples from the field.* (combined with an Evening Poster Session) A variety of projects in Alaska and elsewhere will illustrate the development and application of a big picture understanding to conservation and management of natural resources.

For more information contact: Michael I. Goldstein, USDA Forest Service, Alaska Region, Email: mgoldstein@fs.fed.us, Phone: 907.586.7905

PROCEEDINGS OF THE SEVENTH MOUNTAIN LION WORKSHOP AVAILABLE

Proceedings of the Seventh Mountain Lion Workshop held May 15-17, 2003, in Jackson, Wyoming, are now available.

Cost is \$15.00 USD and make checks payable to " Wyoming TWS ".

Please send requests to:

Tim Thomas
Wyoming Game & Fish Dept
P.O. Box 6249
Sheridan, WY 82801
(307) 672-7418
tim.thomas@wgf.state.wy.us

PROCEEDINGS OF THE FIFTH WESTERN STATES & PROVINCES DEER & ELK WORKSHOP AVAILABLE

The Proceedings of the 5th Western States & Provinces Deer & Elk Workshop, held May 2003 in Jackson, Wyoming, are now available. Copies can be obtained by sending a check for \$15 USD made payable to "Wyoming Chapter TWS" to:

Tim Thomas
Wyoming Game & Fish Dept
P.O. Box 6249
Sheridan, WY 82801 USA
(307) 672-7418

41ST NORTH AMERICAN MOOSE CONFERENCE

Montana Department of Fish, Wildlife and Parks in partnership with Montana Chapter TWS is hosting the 41st North American Moose Conference to be held at the Grouse Mountain Lodge, Whitefish Montana during the week of May 22-26, 2005. For details on this conference, a Web page has been established through the Montana Department of Fish, Wildlife and Parks

home page at www.fwp.state.mt.us/ then click on Hunting. A link has also been set up through Alces at <http://www.lakeheadu.ca/~alceswww/alces.html>. If you have other questions, you may contact Jerry Brown at jerry.brown@libbyfieldstation.com or phone 406-293-4161.

WILDLIFE POSITION AVAILABLE

David Evans and Associates, Inc. (DEA), is a professional services consulting firm that combines the talents of architects, engineers, landscape architects, planners, scientists, surveyors, and related professionals to serve the needs of society, industry, and the future. We are currently hiring a Biologist in our Bellevue, WA office.

The Environmental Business Group in the Bellevue Office is seeking a team-oriented, self-starting mid to senior level Biologist. Primary job responsibilities will include conducting wildlife and wetland evaluations, writing biological assessments for ESA Section 7 consultation, conducting critical areas reviews and participating in agency coordination during local, state and federal permitting processes.

Qualifications:

- Masters degree in Natural Sciences, Zoology, Biology, or Wildlife Science
- Five years of experience
- Excellent oral and written communication skills
- Microsoft Office software, GPS

DEA offers excellent compensation and benefits, including 100% company-paid health benefits for employees and their families. Send cover letter and resume attn: Isabel Stearns, David Evans and Associates, Inc., 2100 SW River Parkway, Portland, OR 97201 or e-mail to ixr@deainc.com. No phone calls or agencies. AA/EOE
